

ALIDE HIRE SERVICES

"Where quality and service still count..."

NSQ (National Sanitation Qualification) Scheme

The NSQ (National Sanitation Qualification) is a Health & Safety training scheme created specifically for the Portable Sanitation Industry. It has been developed by the PSE (Portable Sanitation Europe) in partnership with Human Focus International who are accredited by RoSPA and specialise in Health & Safety training.

As part of Alide Hire Services on going commitment to Health & Safety standards, we have placed all our employees on the NSQ (National Sanitation Qualification) scheme; not only to better their knowledge of Health & Safety but to ensure that they are always up to date with the latest guidance and procedures within our industry.

The NSQ scheme covers six training modules:

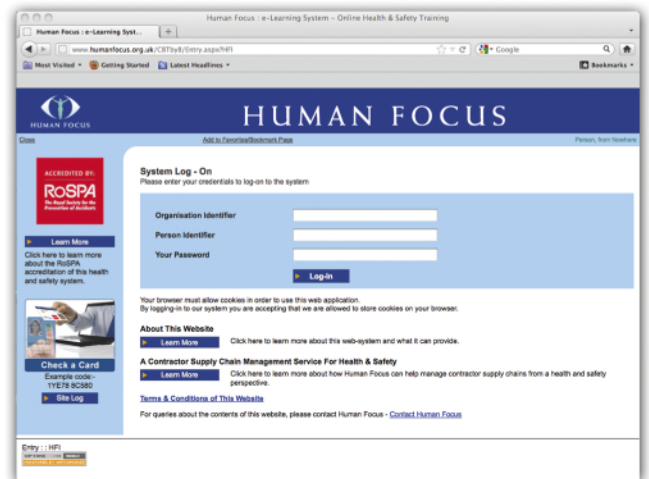

- Slips, Trips & Falls
- PPE
- Basic First Aid
- Servicing of Portable Sanitation Products
- Manual Handling
- Health & Safety in Construction

The NSQ scheme is recognised by the National Core Competence Benchmark (NCCB).

All Alide Hire Services staff have been issued with a NSQ smartcard which not only identifies the individual but also confirms their training achievements.

Simply ask to see the NSQ smartcard of any of our Service Operatives and verify their training by using the link below:
